

## Defense Federal Acquisition Regulation Supplement (DFARS) 252.204-7012

### Dear Government Contractors,

Are you ready for Defense Federal Acquisition Regulation Supplement (DFARS) 252.204-7012? DFARS 252.204-7012 requires **all** Department of Defense (DoD) contractors and subcontractors of those DoD contractors to provide adequate security on all Covered Defense Information (CDI) that resides on the contractor's or subcontractor's information systems by implementing security measures laid out by the National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171 "as soon as possible," but **no later than 12/31/2017**. CDI is any unclassified information that is provided to the contractor by or on behalf of the DoD in connection with the performance of the contract or is collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance of the contract.

Anglin Reichmann Snellgrove & Armstrong (ARSA) has always assisted our clients with DCAA audits and financial compliance issues. Let the ARSA Information Technology Services team help you understand CDI, and implement NIST SP 800-171 before its 12/31/2017 deadline. ARSA IT Services can provide an assessment of your current system, make recommendations for becoming compliant, and help to implement the necessary action items.

- Project Management of DFARS Compliance
- NIST SP 800-171 Controls Implementation
- Audit and Evaluation of NIST SP 800-171 Controls
- Policies and Procedures Development and Implementation
- IT Controls Implementation

For questions or additional information, please contact Brandon Smith at [bsmith@anglincpa.com](mailto:bsmith@anglincpa.com) or 256-489-7246.

Sincerely,

*Anglin Reichmann Snellgrove & Armstrong P.C.*
