## **2018 Budgeting**

2018 will be here before we know it and it is important to proactively plan for it! Gathering information and implementing a budget process for your company can provide goals and targets that help with growth and strategic direction. A budget provides a road map for how you intend and expect your business to perform, which then can be compared to what you actually experience during 2018. It is a useful tool for managing performance, developing a specific niche in your business, projecting net income, and tax planning and projection, to name a few. Your forward pricing budget should always be your starting point for proposal pricing and cost impact analysis.

If you need guidance or assistance in establishing your budget for 2018, please contact **Brandon Smith** at 256-489-7246 or **Michelle Jenkins** at 256-489-7143.

We look forward to helping you!
